User Persona and Segment

Olawa, Age – 20
Medical Student

Cathy, Age – 27
IT professional, Earning

Behaviour

Plays on mobile
Plays saved songs
Looks for discounts

Behaviour

Listens songs while
in commute
Prefers Youtube
while listening on
laptop

Needs

Listen to songs
while relaxing in
hostel
Shares playlist
with friends

Pain Points

To create shared
playlist
A lot of
notifications for
unrelated songs

User Segment

From user's perspective

Age 16-40 yrs

Pain Points

Difficulty to discover
new songs
No notification if
song from fav artist
is released

Needs

Discovers new
playlists
Easily able to play
the repeat songs

Casual listeners

Listening time 0-2
hrs/day

Song lovers

Listening time
2-4 hrs/day

Song Listening Addict

Listening time
4-6 hrs/day

Key Learnings UI/UX

UX of Spotify

Personalization

This is necessary as the user would feel overwhelmed by the recommendation's shown

Non-Intrusive Design

Limited and timed notification to avoid multiple notifications

Ease of Access

The notification centre provides an easy way to browse recent updates without cluttering the apps main interface

Timeliness

Notifications are delivered at moment when users are most likely to engage

Seamless Integration

Notifications blend seamlessly into Spotify's experience, maintaining focus on music

Back-end

- **Programming languages:** Java, Scala, Node.js, Python
- **Messaging and storage:** ZeroMQ, Apache Kafka
- **Databases:** Cassandra, Redis
- **Containerization:** Docker
- **Microservices architecture:** For scalability and fault tolerance

The tech

Front-end

- **Front end**
- **User interface:** React, React Hooks, Styled Components
- **Services:** GraphQL, Web API, native Desktop APIs

Spotify uses majorly open-source tools wherever possible

Key Metrics & Recommendation

Key Metrics Criterion	Metric Name	Formula
Awareness	% of Spotify users who visited the notification settings	Spotify users who visited the notification settings/ Total Spotify Users
Activation Acquisition	% of Users who opened the email/ Notification	Spotify users who opened the notification / Total Users for whom the notification was sent
	Open rate	No of notifications Opened/ No of notifications sent
Acquisition	% of Users who clicked the email/notification atleast once	Spotify users who clicked the notification/ Total users who opened the notification
	Click rate	No of notifications Clicked/ No of notifications Opened
Retention	% of users who open notification daily/monthly	
	% of users who are subscribed for notification	Users subscribed for notification / Total users
Revenue	No of ads notification clicked* Price per add	

Recommendations

1. No notification bar to see all the notification at one place, User must go to each section to see the in-app notifications.
2. **Gamifications of notification** – Users can be given a badge if they complete 100 hours of listening in a month and similar weekly goals.
