PM-X MENTORSHIP ACCELERATOR

Helping Professionals make smarter moves with AI

Transition into Product Management

The PM-X Accelerator is a high-intensity, 10-week program designed specifically for **non-PMs** who want to break into Product Management. We bridge the gap between your current expertise and the technical, strategic, and AI-driven skills required to lead products in today's market.

Why this Accelerator?

- **Mentorship First:** Direct access to Sanket and Ankit for live unblocking and strategic guidance.
- **AI-Native Curriculum:** We don't just teach traditional PM; we focus on AI-empowered workflows.
- **Portfolio Driven:** By Week 9, you will have a validated Case Study and a professional PM Portfolio.
- **Interview Preparation:** Benefit from our application strategy for interview opportunities.

The 10-Week Roadmap

Week	Course Module (Product Thinking)	Interview Module
0	PM Intro, Skills Mapping, Week in Life of a PM	Intro to Mentors, PM Interviews
1	Product Fundamentals, Systems Thinking	Context Understanding
